Resolutions on partnership relations between Fuerstenfeldbruck and Karkar

Thankful for the opportunity of coming together as brothers and sisters in the one body of Christ the representatives of the partnership groups have concluded these agreements:

1. We want to continue our partnership; we want to learn more about one another and want to help each other to do the work we are called upon: to work in God's mission.
2. We on the German side see it as our responsibility to assist our Christian brothers and sisters, especially in their church work. We will call on our congregations to help in special needs, or for special projects.
3. We agree to keep in touch by the channels of communication that have been of great help: Germans living and working on Karkar Island. Especially the sending of pictures and emails is considered a basis for regular information of the life on Karkar Island.

The Karkar delegation accepts the kind request of the German group to send a short, informative report once a year. This should be sent in time to be presented at the Synod of the Deanery (before October).

4. The partnership will be maintained between the ELC-Karkar District and the Deanery of Fuerstenfeldbruck. Each partner seeks to inform their congregations about the partnership, and tries to involve as many as possible. Direct contacts between Sekets or congregations with the German partners are not intended.
5. Fuerstenfeldbruck is willing to sponsor the introduction of "Amamas Wantaim Na Lotu Long God - Musik Edisen". Further assistance will be provided as far as possible.
6. The contact with the doctors at Gaubin Hospital and the support of the hospital is also part of the partnership work. There should be close contact and information about needs and assistance between Gaubin Hospital and the Headquarters of the ELC-Karkar District.

The guidelines of Romans 15, 1 - 7 may help us in our common task.
